Capel C.S is selected in Greater Anglia's new £174m Civils & Building Works Framework across all Scopes

London, 16th October, 2025- Capel C.S Ltd, a leading name in the construction industry, is pleased to announce its appointment in Greater Anglia's new £174 million Civils and Building Works Framework, joining a select group of 17 other contractors set to deliver essential infrastructure upgrades across the East Anglia rail network.

The framework, managed by Transport UK East Anglia, will see works delivered across four core lots: depots and lineside assets, stations and non-lineside infrastructure, mechanical and electrical (M&E) works, and station painting. Capel C.S will contribute across all four areas, supporting the safe delivery, maintenance, and enhancement of Greater Anglia's network over the coming years.

"We are delighted to have been appointed to this significant framework," says Paul Coomber, Managing Director, Capel C.S. "Having worked with Greater Anglia for many years across their station network, this appointment reflects the trust and confidence in our ability to deliver high-quality works safely, efficiently and to the highest standards. We look forward to continuing our contribution to the improvement of rail infrastructure across our country."

Paul Coomber, Managing Director, Capel C.S Ltd

Established in 1993, Capel C.S has a long-standing track record of delivering civil engineering, building, and finishing works across the UK rail network. The company is a trusted contractor to several major Train Operating Companies (TOCs) and has been involved in a wide range of railway and infrastructure projects across London and the wider UK.

Recent works include station and depot refurbishments, structural improvements across the Greater Anglia network, and civils support for London infrastructure upgrades — all delivered with a focus on collaboration, safety, and operational continuity.

Capel C.S is recognised for its commitment to quality workmanship, ensuring projects are completed on time, on budget, and to specification, while maintaining the highest standards of safety and public responsibility.

This latest appointment reinforces Capel C.S's role as a key delivery partner in maintaining and modernising the UK's rail and transport infrastructure, building on almost three decades of trusted collaboration with industry stakeholders, clients, and supply chain partners.
